5. ADVANTAGES & DISADVANTAGE

Advantages :

- It makes the new available news in one place and user doesn't have to search the news.

- The app is developed using android and hence it will be Userfriendly.

Disadvantages :

- It doesn't display a whole detailed news

- This application's interface is little bad , we can improve it impressively

6. APPLICATIONS

This application is used in Publishing online newspapers, news articles or the news sites so that news are available easily without any searches.

7. CONCLUSION

This is an application which we can use to get a daily news update, first the user has to create an account and then the user needs to login. User can click the headlines and see the short note of the news . This project is used to get the latest news of the world. The news information ranges from trending sports, health technology, education, science and entertainment. You don't need to go outside and buy a newspaper to see the trending news.

8. FUTURE SCOPE

We have an idea to improve this application , like display complete information about the

news like where , when , how , who etc. . Also having an idea of increasing the user experience and user interface so the user can get a colorfull visuals.
